THE AMERICAN JOURNAL OF MEDICAL TECHNOLOGY
INDEX TO VOLUME XVI

A

Abstracts ..... 44, 60, 163, 206, 242 and 326
Amylase, A Method for the Quantitative Estimation of—in Body Fluids Other than in Blood Serum, *by John A. Mooty* 239
Announcements ..... 49, 68, 167, 209, 278, and 329
Antibodies, The Trysinized Method for the Detection of Incomplete— *by Jane F. Taylor* 235

B

Bacteriology, Medical—in the Small Laboratory Using Commercial Dehydrated and Prepared Media, *by Dorothy A. Foreman* 51
Biochemistry, Photometric Methods in Clinical—, *by G. R. Kingsley* 247
Blood, A Complete Method for Consistent—Staining, *Walter T. Case* 34
Blood Banks, A Technologist's View of the Community and Walking — —, *by Lona G. Jacobson* 306
Blood Dyscrasias, Nutritional, *by Alice M. Bergdahl* 243
Book Reviews ..... 207, 59, 43, and 327

C

Committee Reports 213, 166, 65, 53
Cancer, The Role of the Medical Technologist in the Cytologic Diagnosis of—, *by Charlotte M. Street* 1
Cancer Research, Radioistopes—General Considerations: Newer Applications of Radiant Energy in—and Therapy 144
Constitution and By-Laws Changes 277
Convention 65, 70, 71, 56, 153
Corpuscular Constants, Derivation of the—, *by William R. Best and Louis R. Limarzi* 56

D

The Medical Technologist and—, *by Sarah Allene Wise* 45

E

Editorial Pages ..... 46, 63, 151, 209, and 323

F

Frogs, Seasonal Variation in the Response of Leopard—to Injections of Pregnancy Urine, *by L. B. Soucy* 6
Fungi, A Study of Yeast-Like—Isolated from Pathological Lesions, *by Helen Menkel* 181
Fungi, The Isolation and Identification of the Pathogenic—, *by Charlotte Campbell* 17
Fungus, Some Clinical and Immunologic Features of Systems—Infections, *by Donald S. Martin* 136

H

Hematology, The Practice of—in General Office Medicine, *by Clara M. Becton* 41
Hematology, The Value of Photomicrography in the Study of—, *by Sister Mary Leo Rita* 227
Hemoglobin, Determination of—and The Red Cell Count on the Same Sample of Blood with a Photoelectric Colorimeter, *by B. Anita West* 119
Histoplasma Capsulatum, Techniques used in Demonstrating—, *by Rachel M. Lehman* 18
Hypoglycemia, The Value of an Insulin Tolerance Test in the Diagnosis of Functional—, *by Sister Mary James* 313

L

Liver Function, Mechanism of — — and Metabolism—, *by Louise S. Garver* 9

M

Medical Technologists, Schools for—, Organization and Curriculum—, *by Mrs. Evelyn Jardine* 321

P

Paraffin Sections, Preparation of Large .... for Lantern Slide Projection, *by Alvina Henning* 195

Parasitic Ova. A New Iodine Preparation for the Staining of— — and Cysts, *by Arnold Swancara* 193

Penicillin Therapy, A Bacteriological Study of Urethitis Following— —, of Gonorrhea, *by Ruth A. Kirby, Matthew A. Bucca and J. D. Thayer* 113

Penicillin, The Use of Penicillinase Schenley in Routine Cultures Following Administration of—, *by Lois Byler Linn* 15

Phase Microscopy, Microscopy Technique with Special Reference to—, *by Dr. F. W. Porro* 37

Phosphatases, Serum—, *by Vernal Johnson* 130

President's Page (The Gavel) .....47, 64, 167, 276, and 325

Publicity Workshop 254

R

Radiochemistry, *by Martin Rubin* 141

Recruitment, Vocational Guidance Panel 28

Registry of Medical Technologists, (ASCP), Report of, *by Dr. L. G. Montgomery* 198

Rh Sensitivity, A Rapid Screening Test for— —, *by Alvina M. Thompson* 32

S

Sodium Metabolism in Health and Disease and a Photolometric Method for its Determination in Biological Fluids, *by Sister M. Simeonette Savage and Sister John Emily McGinnis* 169

State Societies .....64, 168, 223, and 281

Sulfonamide Blood Levels, Determination in the Blood of Darvisul, a Modification of the Method of—, *by Ruth M. Church* 25

T

Tuberculosis, The Medical Technologist Looks at—, *by Anne B. Maddocks* 283

U

UNESCO Conference Educational Reconstruction 47

V

Viral Diseases, Laboratory Test in— —, *by Vernal Irons, Sc. D.* 299

Virus Diseases, The Lymphocyte in— —, *by Drs. Ben Fisher and Andrew Ranier* 188
